

Tank Storage Agreement Form

We at Liberty for Trading Agencies (LFTA) www.libertyfta.us are now able and capable of providing you storage tanks for your petroleum products.

The Tank farm we represent is world class, with professionals to assist the user in a capable manner.

This Tank Farm has 7.8 million cubic meters of storage capacity in its terminals, in 11 countries and across five continents..

All Energy companies use complex networks of onshore terminals, storage tanks, blending facilities and pipelines. These bulk logistical facilities take crude oil from ships, storing and delivering it to the refinery at the right time. Similarly, they store and blend refined product to create the exact specifications required in certain markets before transporting it on to the end users.

In the case of gas, terminals tend to take deliveries from specialist tankers or pipelines from gas fields before testing, treating and distributing the gas regionally through pipelines. Alternatively, they store gasses derived from crude oil, such as butane, which are then bottled and used for cooking or heating, where there is no mains gas network.

Tank Farm has independent terminal operators. Open and Covered storage, Handling with own staff and specialized equipment, Handling storage, value added services; quality control, barcoded scanning, Mobilization & demobilization of heavy lift vessels, barges, floating cranes.

*Sea fastening/grillage/steel support structures

*Yard for storage, assembly and handling of heavy steel structures

*FPSO+ship lay-by and maintenace.

*Port agency: ship clearance, crew change, disposal, equipment, bunkers.

Furthermore, terminals include state-of-the-art greenfield terminals and existing terminals that have been modernised to ensure they deliver to the demanding requirements of trading customers. From inception, the focus has been on creating quality, flexible, efficient and, above all, safe assets run by highly skilled people.

Finally, Joint and safety record is among the highest in its sector, and it continues to develop and invest in new assets around the world, from Rotterdam to Malaysia, Houston, Artwerp, Singapore and more.

In order to submit request to lease a storage tank, from our Tank Farm for your petroleum products you will need to send the following:

- 1) **Corporate Profile** of the Company that is seeking to lease the storage tank;
- 2) **LOI** in Company letterhead with all the contact details, and identifying the product, amount, location needed to store the product etc.;

Please address the LOI to: Tank Farm / LETA Via Tom Kalasho

3) Specification of the product your company need to store; Send your request to tkalasho@libertyfta.com or tkalasho@gmail.com, feel free to call Tom at [313-412-8254](tel:313-412-8254) or [313-424-3867](tel:313-424-3867)

Thank you.
